# dldp support on waste

## Cost and tariff

- Revise the cost and tariff curriculum to include optimization
- Institutional support on (Waste) Regulatory Entity

## Waste optimisation

- Develop inter-LGU waste planning and cost and tariff system
- Role of regions in waste management

## Recycling and composting practices

- Develop the innovative recycling and composting models
- Disseminate good practices on waste management

## Planning/benchmarking and monitoring

- Institutional support to Ministry of Environment
- Develop a methodology on defining minimum standards of the service

# Regional Trainings on cost and tariff

Methodology and approach	Provide trainings with already developed cost and tariff curricula enriched with experiences of Shkodra and Lezha
Expected results expressed in indicators	LGUs improve the Financial Management of waste services No. of LGU which apply the cost/tariff model socially sensitive
Involved stakeholders	3 national service providers, MoE, ASPA and WRA
Beneficiaries	dldp partner LGUs in 3 new qarks , 3 Qarks, deconcentrated agencies (REA)
Timeframe	July 2014

# Revise cost and tariff curricula including optimization

Methodology and approach	Revision of curricula based on evidences and international good practice s Bottom up and top down validation
Expected results expressed in indicators	1 training curricula (waste optimisation) piloted and introduced in LGUs + 2 revised curricula (cost and tariff on waste and local waste planning) piloted and introduced in LGUs Half of LGUs trained on Waste, use and replicate experience and good practices
Involved stakeholders	LGUs, National and international service providers, CC members, WRA and MoE, other programmes
Beneficiaries	MoE/regulatory authorities and training institutions
Timeframe	September 2014-September 2015

# Institutional support on Waste Regulatory Entity

<b>dldp approach</b>	<b>Technical assistance to a national institution which will take over regulatory competencies on waste. Exposure to good international practices, local context and synergies with other programmes.</b>
Expected results expressed in indicator	<p>Line ministries as well as national institutions (i.e. WRA) have implemented measures of their action plans and are capacitated to take the regulatory competencies of waste sector</p> <p>1 study tour on WM tasks and functions of stakeholders, with a special focus on cost &amp; tariff</p> <p>1 international round table report on waste regulation</p> <p>2 by laws related to cost and tariff as well as benchmarking/monitoring</p> <p>2 consensual decisions (inter-institutional and lead by different political parties)</p>
Involved stakeholders	WRA, line ministries (MoE, MoLI etc.), MP, SPs, local and international experts and other programmes
Beneficiary	WRA
Timeframe	February- December 2015

# Role of Regions on Waste Management

<b>dldp approach</b>	<ul style="list-style-type: none"> <li>• <b>Elaboration of a methodology for a benchmarking and monitoring system at local-regional level</b></li> <li>• <b>Capacity building</b></li> <li>• <b>Bottom up and top down validation</b></li> </ul>
Expected results expressed in indicator	<p>Regional Environmental Agencies and Qarks, are capacitated to implement and monitor waste management standards</p> <p>1 joint proposal of CC in a waste benchmarking system (4 WSh on regional level) and 1 consolidated practice on recycling and information (study tour)</p> <p>1 joint proposal of CC in second tier of local level (based on 5 WSh on regional level defining second tier of local level)</p> <p>2 international round tables reports on waste regulation and LGU advancement in EU agenda (2 study tours on national level in waste regulation and EU&amp;LGU-s)</p> <p>Nr. of proposals for amendments of sub- legal acts in the thematic areas of dldp are made</p>
<b>Involved stakeholders</b>	LGUs, qarks, line ministries (esp.MoLI), SPs, local and international experts
<b>Beneficiaries</b>	LGUs, Qarks and (MoLI), deconcentrated agencies REA
Timeframe	September 2014 – February 2015

# Institutional support to Ministry of Environment

<b>dldp approach</b>	<b>Starting from the national conference contribute to a revision of the MoE's action plan, upscale, replicate local practices, national exchange, participative assessment of strategic documents</b>
Expected results expressed in indicator	<p>1 national conference on WM MoE, MoLI, Inter ministerial and Advisory WG on Waste as well as other programs have implemented measures of their action plans (develop training curricula/ instruments and deliver it)</p> <p>2-3 Co activities with other partners which related and link with dldp activities</p>
<b>Involved stakeholders</b>	MoE, Inter ministerial and Advisory WG on Waste, national and international Ss, other programmes, Ministry of Education, schools, recycling business and LGUs
Beneficiary	Ministry of Environment
Timeframe	July 2014 – December 2015

# Develop interLGU Waste Planning and cost-tariff system

dldp approach	Coaching, project implementation, legal and organizational development, capitalize experience for policy influence .
Expected results expressed in indicator	<ul style="list-style-type: none"> <li>· The area covered by waste collection has increased by a minimum 20%</li> <li>· The fee collection from waste service has increased by a minimum of 5%</li> </ul> <p>dldp supports an integrated schemes on WM socially sensitive (one good practice)</p>
Involved stakeholders	CC members, REAs, national SPs, local communities and media.
Beneficiaries	5 LGUs of xy area,
Timeframe	July 2014 – June 2015

# Develop interLGU and composting models based on practices

dldp approach	Coaching, project implementation, legal and organizational development, capitalize experience for policy influence.
Expected results expressed in indicator	<ul style="list-style-type: none"> <li>· Citizen satisfaction on waste services is increased</li> <li>· The area covered by waste collection has increased by a minimum 20%</li> <li>· The fee collection from waste service has increased by a minimum of 5%</li> </ul> <p>dldp supports an integrated schemes on WM socially sensitive (one good practice upscale to national level)</p>
Involved stakeholders	CC members, REAs, national SPs, local communities and media.
Beneficiaries	5 LGUs of xy area, local community
Timeframe	July 2014 – June 2015

## Develop composting models based on practices (Dajç)

<b>dldp approach</b>	<b>Project development and feasibility study, to pilot composting in rural areas, capitalize experience for develop curricula on composting and policy influence.</b>
Expected results expressed in indicator	1 LGU pilot composting scheme (one good practice upscale to national level)  Citizen satisfaction on waste services is increased
Involved stakeholders	Dajç commune, private sector, CC members, REA, SPs, Local and international experts
Beneficiaries	Dajç commune, private sector,
Timeframe	July 2014 – June 2015

# Recycling and waste standards in Shkodra

<b>dldp approach</b>	<b>Competition of innovations ; support public private partnership; legal and institutional support; increase tariff collection from inhabitants and recycling quantities through information and community mobilization; social inclusion (informal sector), capitalize experience as evidence based.</b>
Expected results expressed in indicator	<ul style="list-style-type: none"> <li>• Citizen satisfaction on waste services is increased</li> <li>• LGU consolidate recycling scheme; social inclusion mainstreamed</li> <li>• dldp supports an integrated schemes on WM socially sensitive (one good practice upscale to national level)</li> <li>• The fee collection from waste service has increased by a minimum of 5%</li> <li>• 1 consolidated practice on recycling and information (study tour Shkodra+Lezha)</li> </ul>
<b>Involved stakeholders</b>	Shkodra municipality, private companies, informal sector, CC members, REA, SPs, Local and international experts
Beneficiaries	Shkodra municipality, private companies, informal sector,
Timeframe	July 2014 – June 2015

# Recycling and cost-tariff system in Lezha

<b>dldp approach</b>	<b>Competition of innovations; support public private partnership; legal and institutional support; Community mobilization and social inclusion (informal sector), capitalize experience as evidence based.</b>
Expected results expressed in indicator	<ul style="list-style-type: none"> <li>• Citizen satisfaction on waste services is increased</li> <li>• LGU consolidate recycling scheme; social inclusion mainstreamed</li> <li>• dldp supports an integrated schemes on WM socially sensitive (one good practice upscale to national level)</li> <li>• The fee collection from waste service has increased by a minimum of 5%</li> <li>• 1 consolidated practice on recycling and information (study tour Shkodra+Lezha)</li> </ul>
<b>Involved stakeholders</b>	Lezha municipality, private companies, informal sector, CC members, REA, SPs, Local and international experts
Beneficiaries	Lezha municipality, private companies, informal sector
Timeframe	July 2014 – June 2015

# Define minimum standards of the service

<b>dldp approach</b>	<b>Development of a national local standards of waste management through elaboration of a methodology on sector monitoring and benchmarking; capitalize local and international expertise</b>
Expected results expressed in indicator	<p>4 good practices are developed on Waste Management recycling, composting, public-private partnership and interLGU disseminated</p> <p>at least 2 are integrated in national and local instructions</p> <p>Developed and consulted good practices are socially and gender sensitive</p> <p>1 sub acts related to benchmarking</p> <p>2-3 Co activities with other partners which related and link with dldp activities</p>
Involved stakeholders	LGUs, qarks, line ministries, local and international experts, other programmes
Beneficiaries	MoE and MoLI
Timeframe	February – December 2015

**THANK YOU!**
